IMPORTED DRESS GOODS-GEO, R. TAYLOR.

IMPORTED DRESS GOODS. SUITINGS. SILKS.

Our new dress goods for spring and summer trade are nearly all in and on sale. We find that fine soft mixed wool dress goods with rough sarface will be in vogue this season for suits and skirts and are very pretty and stylish. Last week we found black Mohairs and Brilliantines in small raised figures and plain, to be the best selling goods for dresses and skirts to be made up early. Our lines of both Mohairs and imported wool suitings are very attractive in variety and styles, and prices so low that they are seldom objected to. Fancy silks for waists and dresses are coming in every day and by Thursday of this week our line will be quite full and complete. The 2-inch black figured taffetas we advertised lastweek at one dollar, are the best value we have heard of. Samples from larger cities, when compared with ours were found to be two inches narrower and less incrous than ours at the same price. Not much made by sending to New York or Philadelphia for samples when you can do as well or better at home. We made large additions last week to our stock of

READY MADE SUITS, SKIRTS AND JACKETS.

If you want to see preby dresses or dress skirts, visit our suit de-partment this, week. Everything in that line, that is new and desir-able, will be found there. We wish to call special attention to our light weight mixed cloth dresses and brocade, Mohair and Satin Skirts. They are all very wide and well shaped.

since saturday, and from present indi-cations no important wells will reach the pay before the laster part of this or the first of next week. at a sufficient depth yet to attract much attention.

McCoutcheon & Company's No. 1, located near Kyle No. 2, on the Ash farm, out in the Indian creek district, is down a little over 400 feet. The teninch casing was put in Saturday night. The Carter Oil Company is erecting a rig on the Nowh Books farm and should, with good link, be ready to commence spudding the latter part of this week.

The derrick and tankage at Witten's No. 2, belonging to the Eastern Oil Company, was burned last night. Estimated less, 3800.

The production was not increased as was expected at the Devonian Oil Company's No. 2, on the Kyle farm and the bit was sink deeper in the sand. It is understood drivit this well will be drilled to the deep sands at the once.

"The Fire Patrol" Opens.

"The Fire Patrol" Opens.

"The Fire Patrol" opened a three nights' engagement at the Grand Opera House last night to a large audience, and judging from the hearty applause and frequent curtain calls, the play and company met with the approval of the best ever appearing in the play. Daniel L. DeLacey makes an ideal "Jack Dallas" and Barry O'Neil shares sonors with him in his elever portrayal of "Dave Armstrong." Barney McDonough keeps the house laughing with his funny business in the role of "Staggeract," and his specialty is one of the features of the performance. Miss Virtue as "Neille Lattimer" is very good, and pretty and petite Edith Taibott handles the soubrette lines in the best possible manner. The rest of the company is also very good and worthy of mention. "The Fire Patrol" will be repeated again to-night, to-morrow afternoon and evening. Seats are on sale at the box office.

The Comic Opera "Waug."

"Wang" comes for the last this evening, for one night only, at the Opera House. An exchange says of this season's production:

"The managers have bestowed a care upon the secnery and properties, to say nothing of the selection of a cast, rarely displayed in a traveling company. The large audience last evening and the enthusiasm which it displayed throughout showed that they stamped this endeavor of D. W. Truss & Co. with their popular approval. Mr. Albert Hart, in the part of the impecunious regent, was a decided hit. He was inlimitable in acting, songs and dances, with a deep, sonorous voice. His is a difficult part, and he filled last evening most creditably."

Pitrenological Lecture,
Prof. William Windsor, LL.B., Ph. D.,
the well known phrenologist, is announced to deliver three free lectures
this week in Odd Reilows' hall. On
Thursday evening his subject will be,
"Phrenology Proved;" on Friday, "How
to Escoure Rich." and on Saturday,
"Choice of Trades and Professions."
Prof. Windsor can be consulted daily
at the McLure house.

"The Derby Winner."

This play, given at the Opera House last night, was rather a disappointment. The scenery is not bad, and the horses are all right, while some of the specialties are first-class, but on the whole the show is made up of features stolen from much better plays. The house was not large.

The Time for Building

Up the system is at this season. The cold weather has made unusual drains upon the vital forces. The blood has become impoverished and impure, and all the functions of the body suffer in consequence. Hood's Sarsaparilla is the great builder, becauseit is the One True Blood Purifier and nerve tonic.
